

## New Website Launched for Non-Profit Team Kini Bini

R3 Web Solutions helps Team Kini Bini support Lifebanc Organ Donation

Washington, Michigan (September 30, 2022)

Team Kini Bini has been supporting Lifebanc Organ Donation as a way of honoring the memory of Keira Nicole Christie. Keira saved the life of another through organ donation when she became an angel from an asthma attack. Her liver was successfully transplanted into a nine-year-old girl who is now thirteen and a cheerleader at her school. Keira was also able to donate her kidneys and eye corneas to Lifebanc.

Team Kini Bini supports organ donation through participation in many activities, most notably the annual Lifebanc Gift of Life Walk and Run.

Increasing awareness of the importance of organ donation is a key component of Team Kini Bini's work. R3 Web Solutions is honored to help with this through the creation, design, development, and implementation of a custom website, [TeamKiniBini.com](http://TeamKiniBini.com).

### About R3 Web Solutions

For over two decades R3 Web Solutions has designed and implemented business and computer solutions for organizations and small to mid-sized businesses to increase their ROI. This includes providing affordable mobile, web, and social media. Business process improvement is another key component of the overall strategies used.
